

Project Management Context and Framework

Let me understand the context,
then I can handle it

Learning Points

- Let's decide our model project as a team
- What is a project, project management?
- What is a program?
- Phases, knowledge areas and processes in a project
 - Managing project politics
 - Be open and honest
 - Trust, Delegate and Communicate
 - Define goals and deliverables
 - Protecting your team
 - Promise low and deliver high
 - Iterate! Increment! Evolve
 - Test Early, Test often
 - Break all above rules, when required!
